AIR CONDITIONING

Ceiling Mounted Systems  
FDEVA

Mitsubishi Heavy Industries has further extended its development in world leading technology applied to high efficiency air conditioning and heat pump systems

**FDEVA Ceiling Mounted Systems**

**Cooling Range: 4.7 - 14.5kW**

**Heating Range: 6.3 - 16.5kW**

Air conditioners and heat pumps for commercial and residential applications

OFFICES • SHOPS • RETAIL STORES • RESTAURANTS • HOTELS • GYMS • MEETING ROOMS

The ADVANCED FDEVA Ceiling Mounted System range is a high specification product, with energy saving Inverter technology, extended pipe runs, and sophisticated operation and service control functions. It is ideal for rooms that do not have a ceiling void for other types of air conditioner.

- 7-Day/24-hr Programmable Timer - included in standard wired controller
- Mitsubishi INVERTER Scroll Compressors are used throughout the range
- Significant savings in running costs
- Up to 50m pipe runs
- Compact Outdoor Units have now been introduced, with lower sound levels and smaller physical size, ideal for installation in restricted locations

## Key Features

- 7-Day Programmable Timer
- Two on/off settings each day
- Different temperatures for each set period
- External timer/BMS switching for Group (up to 16 units)
- Wall Controller - hard wired
- Integral temperature sensor
- Infra-red wireless controller optional
- INVERTER technology on all models
- Low profile attractive white unit casing
- Improved air discharge louvre
- Low ambient control included
- Auto re-start after power interruption
- Reduced sound levels
- Compatible with Multi Systems
- Pre-charged for 30m of pipework

RCE1 Wired Controller

Optional 'Wireless' Controller

Energy Saving up to **38%** with INVERTER Technology

## Superior Controls Specification

The Mitsubishi RCE1 remote controller combines all the basic user requirements - temperature setting, fan speed selection, mode, and timer settings, with a comprehensive range of service data functions, INVERTER compressor speed indication, fault diagnosis, and operational history.

Infra-red wireless controller is available as an option. (Limited control function)

## Ceiling Suspended indoor unit

Now has stylish rounded side panels, and a slimmer profile - only 210mm on smaller models. The FDEVA can be installed adjacent to a side wall, allowing the pipe connections and electrical wiring to be concealed.

## INVERTER technology

INVERTER systems constantly adjust the cooling/heating output, dependent on the varying room requirement, providing consistent and comfortable temperature control, and lower energy costs.

## FD-A Series Top Specification High Performance Systems

New compact outdoor units (single fan) up to 14/16kW

INVERTER Multi Systems up to 25/28kW

Pipe connection from bottom, top or rear

Reduced height 210mm on smaller models

Technical features & Accessories

MITSUBISHI HEAVY INDUSTRIES air conditioning systems are imported and distributed in the UK and Ireland by 3D Air Sales Ltd & HRP Ltd. The information listed is for guidance purposes, is subject to alteration without notice, and does not form part of a Contract.

Selected systems are listed on the Energy Technology List.

This listing enables 100% tax allowance in the first year, on the total cost of Mitsubishi systems, plus the installation costs (including pipework and electrical supplies, materials, labour and design costs). Check ETL listing on government web site: [www.eca.gov.uk/etl](http://www.eca.gov.uk/etl)
